For Recycling Commodities

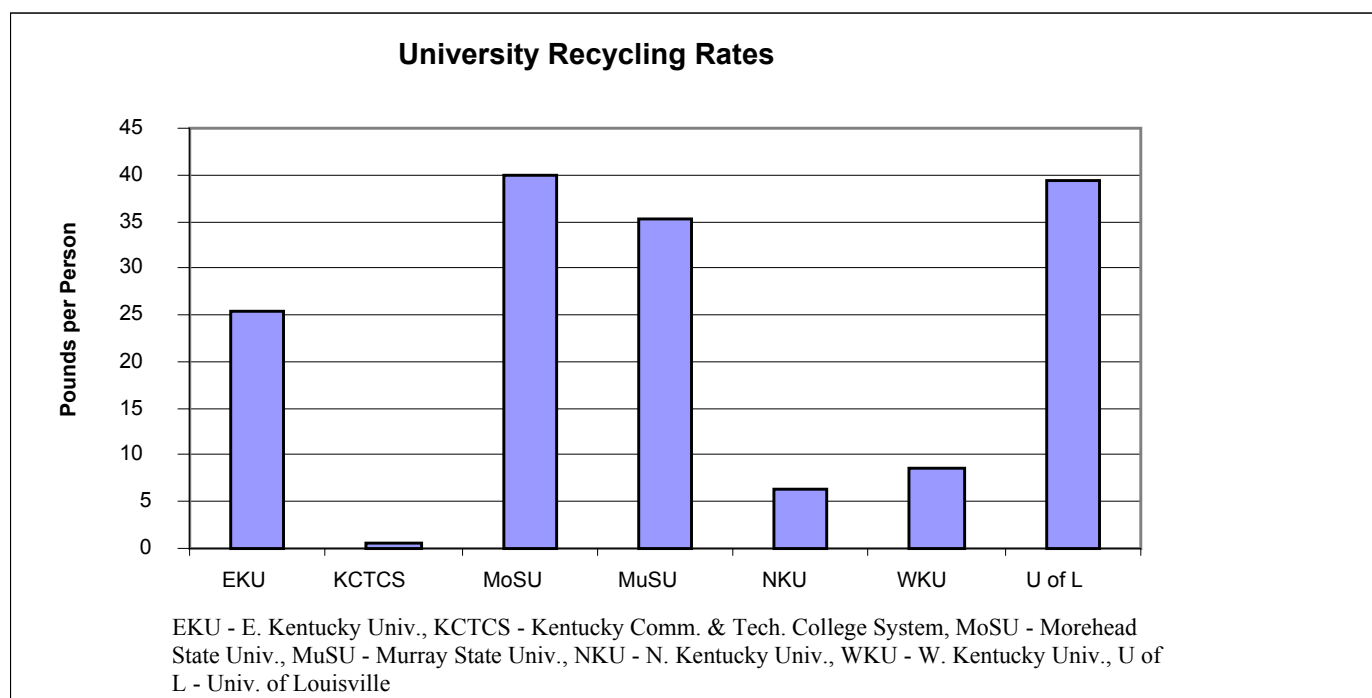

Kentucky Recycling and Marketing Assistance

Vol. 13, No. 12

June 2008

## UNIVERSITY RECYCLING

State supported institutions of higher education in Kentucky are required to recycle aluminum, high-grade office paper and corrugated paper, according to Kentucky Revised Statute 224.10-650. The institutions in the chart below are those reporting to the Environmental and Public Protection Cabinet for their respective 2007 recycling programs. The pounds per person are based on the required materials for recycling and the student population at each institution.

Most of the institutions also collect scrap metals, glass, plastic soda bottles, toner and ink jet cartridges, batteries, books, compostable materials, used oil, tires and other miscellaneous materials.

RecycleMania is a 10-week intercollegiate competition between schools across the country to raise student awareness of campus recycling programs. Founded in 2001 between two rival Ohio schools, it has grown to 400 colleges and universities participating in 2008. The national competition this spring resulted in more than 29,000 tons of recyclables and organics diverted from landfills. Schools may choose to participate in any of several different categories. Three Kentucky schools participated this past spring. Bring energy to your school recycling program; get organized now to participate in the spring of 2009. To find out more about the competition, check [www.recyclemania.org](http://www.recyclemania.org).

Visit the Division of Waste Management Web Site at <http://www.waste.ky.gov>

The Kentucky Division of Waste Management does not discriminate on the basis of race, color, religion, sex, national origin, age, disability or veteran status. The division provides, on request, reasonable accommodations necessary to afford an individual with a disability an equal opportunity to participate in all services, programs and activities. Contact the division to request materials in an alternate format.

# MARKETPLACE

6/15/2008

Prices are based on trailer load lots paid by end-users. This guide is for reference only and does not represent an obligation by any buyer to pay these amounts.

Prices vary according to location, condition of product and other factors. Prices for handlers and processors will be different from these prices which are quoted for manufacturers. Prices fluctuate daily or weekly, and are based on the second week of the month, unless otherwise noted, and may change.
